FLASH GATES

Standard sized single pedestrian or double leaf gates made by a lightweight frame system. Thanks to their simple design, affordable price and availability from stock, they are ideal for a number of various

applications. The flash gates are supplied with hot-dip galvanized and powder coated profiles and wire mesh infill panels.

TAILORED GATES

Specially made to suit specific projects, they have a robust structure and are ideal for professional applications and where elegance is required. Their profiles are hot-dip galvanised and powder coated and

the infill panels match with the fencing system. Pedestrian, double swing or sliding gates are the available options.

GATES

SG GATES

Hot-dip galvanized after welding, SG gates are customized using tubular profiles and panels matching with the fencing system: grating, tubular, profiled or ANTICLEA®. Designed for application in professional

and luxury settings, pedestrian, double swing or sliding gates are the available options. Paint coating available on request.

SPORT GATES

Gates for sports facilities complying with the space separation and security in playgrounds and sports facilities current regulations. Available for both pedestrian and vehicular use, with CE marking and

according to the UNI EN 13200 norm (on request), both in the Stadium grating version and the Stadium welded wire one.
